Mr. Michael Burts died at his home near Honea Path last Sunday, after an illness of a few days from diarrhea, at the sdvanced age of 80 years. Mr. Burts was an upright, honorable man, and in his death the County has lost a good citizen. He was for years a faithful member of Broadmouth Baptist Church, where his remains were interred on Monday.

The Sunday School at Carswell Insti-tute will have a basket pic nic on Satur-day, 25th inst. Messrs. J. E. Breazeale, J. G. Clinkscales, G. F. Tolly, L. P. Smith and Rev. J. M. Lander have been invited to address the School on the occasion. The public is invited to attend. Each and every one who attends is expected to bring their baskets well filled with some-thing for the inner man.

Mr. Joab Hall, a former citizen of Anderson County, died at his home near Lincoln Ala., on the 4th inst, after a brief illness, of congestion of the bowels, aged about 68 years. Mr. Hall was a brother of Mr. W. S. Hall, of this County, and has many friends and relatives here who will regret to hear of his death. He moved from this County to Alabama in 1854, and has ever since resided there.

There will be a reunion of Company K, Orr's Regiment, at Honea Path on the 13th day of August next. All the survivors, with their families, are earnestly requested to be present. A cordial invitation is extended to the public to attend, and every one will be expected to bring their dinner baskets. Addresses will be delivered by Judge J. S. Cothran and Hon. John B. Moore, The occasion will no doubt be a pleasant one.

We are requested to announce that in We are requested to announce that in addition to the speakers announced last week to address the Sabbath School Celebration at Lebanon on Friday, 24th inst., Messrs. B. Frank Mauldin and R. W. Simpson are also invited. The Celebration will embrace the schools of Salem, Hopewell, Trinity, Six-and-Twenty, Sandy Springs and Lebanon, who will join in a basket pic nic. A most pleasant occasion is anticipated.

Mr. W. T. Dean, who resides in Varennes Township, is one of the best and most progressive farmers in the County. He has a six-acre field of cotton, which is just five weeks old, that is attracting the attention and admiration of every passerby. A neighbor of Mr. Dean's brought us an average stalk from the field last Monday, and says, for its age, it is the finest cotton he has ever seen. The stalks are very heavily fruited, and will average over three feet in height.

An interesting protracted meeting is in progress in the Baptist Church in this city, conducted by Rev. W. T. Derieux of Spartanburg. Interesting services are held daily at 9 a. m. and 8.45 p. m., and so far four persons have united with the Church, and others have evinced an interest in the meeting. Large congregations are attracted to the services to hear the sermons. Mr. Derieux is an able, fluent and polished speaker, whose clear and incisive sermons cannot fail to interest and impress those who hear him. We trust the meeting will accomplish a good work e meeting will accomplish a good work

The Angel of Death has again entered our city and removed from our midst one of Anderson's most lovely and amiable young ladies, in the person of Miss Mamie A. Todd, who died at the residence of her mother, Mrs. Jano E. Todd, on Wednesday afternoon, 8th inst., after an illness of two weeks, from erysipelas, aged 24 years. Though it was known that she was quite iii], her death was a sad surprise to her large circle of friends and acquaintances in the city. Her illness was not considered serious until the day preceding her death, and when the summons came the family could hardly realize that their loved one had been called to that bright world: "byo. Miss Todd was a most exceller oung lady, and was possessed of all the... virtues that compose true womanhood. In the family circle she was the idol of the household, and in the social circle loved and admired by all. She was a young lady of broad intellect, with a cheerful, genial, disposition. She was a devoted and faithful daughter, a kind and loving sister, a true friend and a faithful Christian. Last Summer Miss Todd graduated at the Normal College at Nashville, Team, and since that time had been engaged in teaching. Since her childhood she had been an exemplary member of the Presbyterian Church in this city. Her remains were laid to rest in the Dresbyterian cemetery on Thursday afternoon, after appropriate funeral services conducted by Rev. D. E. Frierson, D. A Visit to Maj. McCully's Farm.

On Tuesday afternoon we had the pleasure of visiting Maj. P. K. McCully's farm, about one-half mile North of the corporate limits, in company with him. He owns what is known as the old Gordon place, containing about 107 acres, one-half of which is in forest. When he bought the place the land was almost worn out, but by feeding it well and rotating the crops he has made it a very valuable place. Last Fall Maj. McCully sowed the greater portion of the place in grain, but on account of the severe Winter the crop did not do well, and this Spring he concluded to plow up a portion of the grain and plant the Dent corn, more as an experiment than anything else. This experiment has proven a good investment, for he has now as fine a crop of corn as is generally seen in this country. Indeed, a portion of the corn looks like that grown on bottom lands. The stalks are large, and nearly every one has two good ears on it. A large portion of it is about matured, and by the 15th of Angust could be used for bread. Messrs. E. A. Bell and B. Frank Mauldin also have a field each of the Dent corn on their farms near by. This corn has attracted the attention of many farmers, and Maj. McCully thinks that a great deal of it will be planted on rich land to make a good yloid. Judging from the appearance of his farm, we are of the opnion that he is not only a successful morehant, but also a practical farmer. He thinks if our periple would diversify their crops, raise more grain, provisions, &c.; and less country in America. Wifler conversing on that successful morehant, but also a practical farmer. He thinks if our periple would diversify their crops, raise more grain, provisions, &c.; and less country in America. Wifler conversing on that subject, he said:

We are requested to anisothes that there will be a joint Sunday School and Temperahes Fie Nic at W. A. Gest's Spring, Bi miles Fast of Anderson, in Broadway Township, on Wednesday, the Zind inst. The Sanday School Celebration will be under the auspless of the Fairview Sabbath School, and the neighboring Sabbath Schools have been invited to participate. Addresses may be expected from Messrs. B. Frank Mauldin, J. G. Clinkscales, L. P. Smith and Rev. D. E. Frierson, D. D. Music for the occasion will be furnished by the organ and appropriate songs.

After this a basket Pic Nic will be partaken of, and in the afternoon the citizens of Broadsway Township will assemble to hear the temperance question discussed. Addresses are expected from Messrs. H. G. Scudday, R. P. Clinkscales, E. M. Rucker, and E. B. Murray. Music for this meeting will be furnished by the Young America Cornet Band.

The general public are invited to attend with their baskets. Several croquet setts will be present for the amusement of those who wish to play, and a most pleasant day is expected.

The Weekly News and Courier.

The Weekly News and Courier.

The price of this excellent journal has been reduced to \$1.50 a year, or 75 cents for six months. This makes it, in view of its size and character, as cheap as any weekly newspaper in the South. For South Carolinians it has no equal at any price. The Weekly News and Courier is a handsome newspaper of twelve pages and seventy-two columns, and is crowded with news of interest and importance. Particular attention is given to Southern news. Every week there is a sketch of incidents of the war, by some Southern woman. The marriages and deaths in South Carolina are carefully chronicled. There is a Chess column for the delectation of the admirers of that royal game. The agricultural department always contains hints and facts of importance to farmers. There is in every number a story of obvious merit. It is claimed, therefore, that the Weekly News and Courier is the most complete weekly journal in the South, and, in its arrangement of news and its appearance, it certainly surpasses its competitors. The Weekly News and Courier will be sent free for one year to any one who sends in a club of ten subscribers, while those who form clubs of twonty-five and fifty copies will receive the News and Courier (daily edition) free of charge for six and twelve months respectively. Sample copies will be sent to any address, free of charge, on application.

The Reunion.

The Reunion of the Palmetto Riflemen on Tuesday next, 21st., promises to be an occasion of unusual interest. Every arrangement has been made for its complete success, and we hope to meet not only every survivor, but e-ery member of his family, and the relatives of deceased members of the Company. The programme will be to assemble on the grounds at 9 o'clock a. m. At 11 o'clock Col. Hoyt will deliver his address. Dinner will be served at 2 o'clock. At 7 p. m. the assemblage will adjourn. There will be music at intervals during the day. At some hour during the day there will be a meeting of the survivors for the purpose of forming a Survivors' Association. Every one is expected to bring a full basket.

Plain Questions.

Plain Questions.

Mythical ideas are fanning the public brow with the breath of prejudice, ignorance and humbinggery. Have you the remotest idea that your scrofula was created by the use of potash and mercury? No matter what the cause, B. B. B. is the peer of all other remedies. Do you presume that your troublesome catarrh is the result of mineral poisoning? B. B. B. is the quickest remedy. Are your chronic ulcers and boils and sores the result of of potash and mercury? Medical gentlemen will not tell you so, but B. B. B. is the only sovereign remedy. Were your torrible kidney troubles created by mineral poisonings? Not a bit of it, but B. B. B. has proven to be a reliable refriedly. Are your kin diseases, your cause may dry tetter, etc., the effect of too much potash and mercury? The medical profession are the best judges, and they say nay, but B. B. B. makes more pronounced dures than all other preparations combined.
